

PRINTSERVICES OFFER
FOR ROLAND 500, 700 & 900 PRESS USERS

Performance

Are you getting the best from your Equipment?

In today's market we often ignore areas of concern to meet strict deadlines. In time this can lead to reduced quality, job rejection, loss of production time and a less satisfied end customer all round.

Take the time to assess your press performance and avoid those unnecessary headaches.

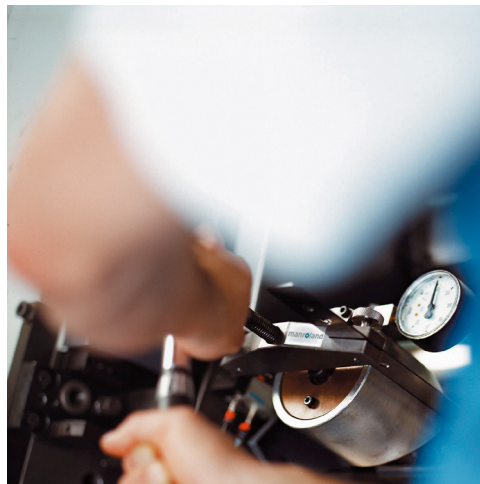

By booking your manroland demonstrator today you can now enjoy the special hourly rate of **£64.00**. So, on a 8hr day **you can now save £104.00** and in return gain manroland expert advice & training.

Training can be tailored to meet your exact needs, however following a thorough analysis we have put together a package that will help you tackle some of the more common issues.

Turn over to find out more about our latest printservices offer.

Our Performance promotion is open to users of ROLAND 500, 700 & and ROLAND 900.

manroland offer bespoke training to meet individual requirements. All our training is supported by a quality management system called 'Quality in Training' to guarantee the level of information and expertise.

Call us today and start enjoying overall quality performance. A happier customer results in a better return.

Give your press the attention it deserves!

Quality training enables press operators and technicians to make safer and more efficient use of manroland printing presses. Press demonstrators will support you in getting to know your equipment by offering customer specific training at all levels.

Our latest printservices offer focuses on the following areas:

Proposed Areas of Focus	Benefit
Feeder	Increased Production Speed
Rollers	Quality & reduced Make-ready times
Dampers	Quality & reduced Make-ready times
Blankets	Installation & good management
Plates & Packings	Replace packings easily and efficiently
Coating Unit	Quality, cleanliness and reduced Make-ready times

Below is an indication of the time needed for certain aspects of our offer. The whole package will cover one day training and demonstrator time. Choose all or certain areas and still receive our hourly discount.

Roller & Damper setting times

Press	4col	6col	8col
ROLAND 500	3hr	4hr	5hr
ROLAND 700	3hr	4hr	5hr
ROLAND 900	3hr	4hr	5hr
